Comments:

Remember when renewing your license was just a quick errand you did on your lunch break??!! There's got to be a better way to do this.

Comments:

At present getting a driver's license/renewal is arduous at best. Now the star required by TSA can be used as proof that one has already shown proofs of citizenship and residency so there should be no need to produce those papers at each renewal. This would return the driver's license ritual to its former mere aggravation. Anyone wanting an illegal license would not try to go through the legal system in any case.

Comments:

Please ameliorate the driver's license process to ease the burden on our citizens. The TSA star could be used as proof that all papers have already been filed when applying for a license renewal. Thank you for your help in this matter.

Comments:

I support this bill to stop requiring all the proofs of citizenship and residency every time a driver's license is renewed. The new star on the licenses required by TSA could be used as proof that all the paperwork for citizenship and residency has already been supplied and is sufficient.

Passing tis measure would reduce the amount of time and effort it takes citizens and clerks at the DMV to process driver's license renewals. It just makes sense.

Thank you for your attention.

Amanda Armstrong

Comments:

If proof of citizenship and residency is accepted when renewing or getting a license for the first time, it should not be required again when it is time for a renewal of one's license. This is a waste of time for the government as well as the renewer.
